

# From Jonathan Beaudette

I really loved Ted. He was like an older 'brother.'"

I could talk with him about anything, literally, and he felt that way too. Business, taxes, aliens, dimensions, "conspiracies", taxes. God, it didn't matter, we had no limits in conversation. LOL

I know he has not really gone. I wish I had connected with him as the little voice suggested, but I still can.

You both are such beautiful people, I appreciate how you both opened your hearts and home to me.

Ted touched my life and made me better, I feel so much at this time, I felt so close with him, yet, we had so little interaction in our lives... funny how that can be.

Diana, I'm thinking of you. I've read through many of your Facebook posts since then, I'm happy to see Ted is quite active in your life, and I KNOW that will be never-ending.

My heart goes out to you, and Master Ted.
